HOTPEC ORPHANS SPONSORSHIP PROGRAM

For Sponsors

How are the children chosen by HOTPEC?

Orphans in the community with no one to look up to are taken in by the orphanage and taken care of. The orphanage presently has 60 orphans and seeks to take in more but is limited by man-power and resources.

How do I get to know my sponsored child?

After selecting the child you wish to sponsor from the children's profile, HOIM will give you the opportunity to connect with the child in one of these ways:

You can communicate with your sponsored child by sending an **email** to HOIM which will be forwarded to the child via the HOTPEC administration with your personal data (email address, last name, or physical address and phone number) removed. We will provide you with an email account you can use to send emails to your sponsored child. Replies to your emails from the child will come to you via HOIM. This form of communication through HOIM is to ensure the protection of the sponsor's personal information and make sure that the children at HOTPEC are not exposed to anything that is undesired.

If you prefer to send a **letter**, please do the following:

1. At the top of your letter, please write the child's name and ID #. Please do not include your mailing address, phone number or last name in this letter.
2. Address the envelop to HOIM (visit our website for our address and contact information: www.hopeoutreachinternational.org) and provide a return address on the envelop, through which HOIM will send you the reply from your sponsored child. After HOIM receives your mail, the content of your envelop will be put in a separate envelop and sent to the HOTPEC office. Your envelop will be kept at the HOIM main office in USA.

Can I send gifts to my sponsored child?

You can send inexpensive gifts like pictures and stickers that can be mailed with your letter. To send more bulky gifts, please contact HOIM and we will let you know when it is most appropriate to do so through HOIM.

What is the cost of sponsoring a child?

An amount of **\$30 per month** will be sufficient to support a child. This amount can be sent to HOIM monthly, or a total of 6 months or a year's worth of support can be sent to HOIM in a lump sum.

Can I still support a child even if I can only afford less than \$30 a month?

Yes, you can still do so. HOIM will try to get other sponsors who will be willing to donate and make up for the balance.

What will my sponsorship provide?

Your sponsorship will go a long way towards providing a child with hope and opportunities they would not otherwise receive. Your financial support will provide these kids with food, clothes, basic health care, education, vocational training and much more. Our goal is to get these children to the point where they will no longer need outside support.

How often will I receive progress reports of my sponsored child?

HOIM will send progress reports to sponsors 4 times a year. HOIM will choose four reporting sessions a year to send reports to all sponsors participating in this program.

Do I get to receive any financial statement for my donations?

Each time HOIM receives a donation from you, a letter will be sent to you acknowledging your donation, and just around each tax reporting session, a letter will be sent to you stating all donations you have made through HOIM.
